

## EDUCATION FOR CHILDREN IS A RIGHT, NOT A PRIVILEGE

### A BIT ABOUT US

The objective of The **AWARE** Foundation (Action With Awareness Regarding Education) is to give dispossessed, disadvantaged and vulnerable children in India the right to an education.

**AWARE** reaches out to children in deprived communities throughout India by using education as a way of transforming their lives for the better. It also provides street/runaway children and orphans with a protected childhood so that they can go on to make well-informed decisions in life.

Several hundred children of various age groups and with different needs are being supported by the Foundation's funding of a number of projects and organisations.

It costs £250 to feed, house, educate and provide loving care for these most disadvantaged children for a year:

**£5 buys one week**

**£10 buys two weeks**

**£20 buys a whole month**

Please find it within yourself to give as generously as you can. Your support is much appreciated.

*"I've worked in India many times, and seen the street children living in railway stations or collecting rubbish by the road. It's the spark of hope that touches me. Ask them about their lives; they laugh, they chat and talk about how they want to be scientists or teachers or how they want to go to university. I think the **AWARE** Foundation can help make those dreams come true."*
